SIAC Meeting Summary for August 22, 2014

Agenda Item	Discussion	Action/Priorities/Recommendations
SIAC Welcome and Introductions	Commissioner Begley (DBHDID) SIAC Chair called meeting to order and called for introductions of SIAC members, designees and presenters.	
Review of July 23, 2014 SIAC Meeting Summary	Motion made and seconded to accept the meeting summary with no changes.	Minutes Adopted
System of Care “Youth Guided” Care Update- Allie Rigsby(SIAC Youth Member)	<p>Youth Guided Update:</p> <ul style="list-style-type: none"> Youth Peer Support Specialist position & regulation: Youth Peer Support services for ages 18 through 24 are billable through Medicaid. Youth Peer Support Specialist certification training was held August 11-15, 2014 in Frankfort, utilizing the Youth Empowerment Program Curriculum the committee designed and developed. KY Youth who attended the Maryland Conference participated in the Wraparound Training. <p><i>DBHDID Commissioner & SIAC Chair, Mary Reinle Begley, asked DBH Director, Natalie Kelly, to explain the service of Youth Peer Support.</i></p>	<p>Commissioner Begley noted the need for training on how community agencies and partners can access Youth Peer Support services.</p> <p>Tena Robbins noted importance of informing schools about Youth Peer Support services.</p>
System of Care “Family Driven” Care Update- Lee Ann Kelly (SIAC Parent Member)	<p>Family Guided Update</p> <ul style="list-style-type: none"> Ms. Kelly distributed a report on activities Parents are participating in across the Regions in KY; including: <ul style="list-style-type: none"> Facilitated discussions about “What is Wraparound” Parent/ Child interaction How to partner with and navigate child-serving systems Attending the ‘Kids are Worth It’ conference hosted by PCAK Training for the GAP Grandparents on ‘Family Driven and Youth Guided’ care Training on KY’s Special Education Law Parent groups across the Regions are concentrating on School Readiness issues. Ms. Kelly delivered a presentation on ‘Family Driven and Youth Guided’ care to Service Coordinators working with children, youth and families. Requested information from SIAC on training & resources that are available for parent representatives. 	<p>Full report detailing Parent activities in various Regions throughout KY. distributed to SIAC & guests; for copy contact martha.campbell@ky.gov</p>

	<p>Service Coordinator to their team.</p> <ul style="list-style-type: none"> • RIAC support to fund our Family Liaison position as well as our Youth Coordinator position, allowed us to grow our Parent Support Groups/Youth Groups. Parent Support Groups are vital in allowing our parents to network and interact with each other, while their children participate in a safe, fun activity. Our mentoring program is also supported by RIAC and allows children to get a one-on-one mentor, which has proven very worthwhile to our clients. <p>3. Success story for a family/child and RIAC's role supporting the family's success.</p> <ul style="list-style-type: none"> • Young lady(age 17 currently) was originally enrolled in Impact and therapy in February, 2013 after being involved with DJJ due to substance use, which led to legal trouble and risky behaviors. After months of being non-compliant with therapy, and getting into further legal trouble, she was transitioned over into the KAT-Ed program, which continued to offer intensive support from her therapist and service coordinator. At the start, she was very angry, non-compliant with everything (appointments, court orders, etc.), and was on probation and failing school. Her living situation changed due to her father continuing to condone the substance use and inappropriate behaviors, and then her case was transferred from DJJ to DCBS. She started to participate more in therapy, and started attending the peer groups that our service coordinators have assisted with for the KAT-ED clients. She became more and more involved with that group, and has now become a stand-out leader in that group. She has now been able to achieve her G.E.D., acquired employment, and is very compliant with therapy, and now calls her service coordinator for support, instead of the service coordinator trying to track her down. She is on the road to being the first Peer Leader through the KAT-ED program, as evidenced by the fact that she was able to get up during one of the peer group meeting spontaneously, and share her story with the other adolescents that were newer to the program. This was a very moving moment, and she did this without any preparation or planning. She is clearly a success story; this demonstrates the power of KY IMPACT & the wraparound approach, KAT-ED program & peer support. <p>4. Share 1 thing SIAC can do to better support your RIAC.</p> <ul style="list-style-type: none"> • Changes coming with the hiring of the RIAC Policy Advisor will help improve communication, and direction between SIAC and RIAC. <p>5. Share interactions/ interventions your RIAC/LIAC has implemented in some or all of the following areas: strengthen role of councils, improve access to services, expand array of services, advance collaborative efforts, etc.</p> <ul style="list-style-type: none"> • Expanded Parent Support Group to Grant County, which has been very well received. They meet monthly & have a strong base of parents. We plan to add another Parent Support Group in Gallatin County this year. 	<p>Commissioner Begley expressed concern regarding heroin use in the Northkey area and asked Mr. Rohrer and Ms. Robinson if they are seeing an increase in the number of cases. Responded that they are seeing more cases and described the cases as challenging particularly due to the parents' use of substances as well; Region 7 stated they will seek support from SIAC if needed to address this issue.</p>
--	--	---

	<ul style="list-style-type: none"> KAT-ED has expanded the array of services in our region. These youth receive KY Impact services, so their cases are reviewed at LIAC, and activities are supported by RIAC. There is a separate Parent Support Group tied to this program & they are introduced to our Family Liaison and invited to our KY Impact Parent Support Group; youth are regularly invited to KY Impact youth group meetings/outings also. KAT-ED grant has improved collaboration w/ Campbell County courts and other agencies. Our Impact service coordinator is in court twice a week, to help facilitate appropriate referrals to KAT-ED program, to Impact, & NorthKey as a whole. We are excited about expanded coverage through Medicaid for KY Family Peer Support Specialist & Community Support Associate positions & hope these changes allow us to expand the array of services we can offer to families. <p><u>Region 7 Northern Kentucky LIACs:</u> LIAC I & LIAC II: Boone, Kenton and Campbell Counties LIAC West (Warsaw): Carroll and Gallatin Counties LIAC East (Dry Ridge): Grant and Pendleton Counties</p>
